Product Overview

For over four decades, Weatherhaven has been the global leader in designing and delivering complete turnkey camp solutions. Serving government agencies, humanitarian organisations, NGOs, and commercial operations, our camps utilise in-house manufactured shelter systems as the foundation. Our camps include power generation, lighting, potable water, kitchens, sanitation, and more. No matter how remote or challenging the environment, Weatherhaven ensures your personnel have the facilities they need to operate effectively, safely, and in comfort.

Weatherhaven specialises in providing fully operational camps in any global location. Whether it's an arctic outpost, desert base, or jungle field site, our expert teams deliver power, lighting, kitchens, toilets, showers, and water treatment. Every system integrates seamlessly with our robust shelters to create an operational hub from day one. Our mission is to provide rapid, reliable, and efficient camp deployment so you can focus entirely on your mission objectives.

Deploying the latest in camp technology in support of your operation

In urgent situations, time is everything. Weatherhaven's containerized and soft wall shelters can be deployed at remarkable speed, allowing your operation to be fully functional within days. Our modular designs mean infrastructure can expand as needs grow. From humanitarian disaster relief to urgent commercial mobilisations, our turnkey approach ensures every camp is ready for immediate occupation – complete with power, water, sanitation, and climate control in even the harshest environments.

Standard Specifications

Workforce Camps specifications can vary depending on your configuration
